

IC PACKAGE DESIGN ENGINEER F/M

NanoXplore is a pioneer in design and development of space-grade FPGA and e-FPGA located in Paris and Montpellier. As a rapidly growing company, NanoXplore is looking to continue building its software and hardware teams.

We are currently hiring an IC package designer who will join our hardware R&D team located in Paris. This person will contribute to the various package designs for NanoXplore FPGA's.

MISSION

- Design of organic and ceramic IC packages.
- Industrialization of packages in collaboration with subcontractors.
- Contribution to the specification of future NX FPGA's together with hardware and marketing teams.

REQUIRED SKILLS

- Experience in design, simulation and validation of IC packages.
- Knowledge in manufacturing test cycle.
- Knowledge in Python will be appreciated.

PROFIL

- Engineering degree or relevant experience.
- Good communication (oral and writing) skills in French and English.
- Availability ASAP.

COMPANY

Join our highly motivated team and be part of our success story "à la française," in a company with a start-up mentality. We have always believed that our limits are drawn by your motivation. Always attentive to the wellbeing of its employees, NanoXplore allows you to grow and to develop your skills in a quick-paced, reactive working environment. Have any questions about what do we do? The Company? Daily life? Please contact us at careers@nanoxplore.com.

SUMMARY
