

FIELD APPLICATION ENGINEER F/M

NanoXplore is a pioneer in design and development of space-grade FPGA and e-FPGA located in Paris and Montpellier. As a rapidly growing company, NanoXplore is looking to continue building its software and hardware teams.

We are looking for an FPGA Application Engineer. The selected candidate will join our Field Application Engineer team based in the Paris region. Teamwork skills will be decisive in the selection of the candidate.

MISSIONS

Your different tasks will be:

- Supporting customer to getting started with our solutions.
- Troubleshooting and debugging of costumers' problems.
- Working close with internal teams to get the right answers.
- Improvement of our customer documentation in cooperation with the tech writer.
- Actively contribute to customer satisfaction.
- Travel occasionally to the customer to provide support.

PROFILE

- University or Engineering School degree (Bac + 5 or Bac + 8)
- At least 5 years of industry or relevant experience
- Knowledge of RTL languages: Verilog or VHDL
- Knowledge of scripting languages (Python, Perl, Bash, etc.)
- Excellent communication skills in English.
- Excellent customer-relation skills.

COMPANY

Join our highly motivated team and be part of our success story "à la française," in a company with a start-up mentality. We have always believed that our limits are drawn by your motivation. Always attentive to the wellbeing of its employees, NanoXplore allows you to grow and to develop your skills in a quick-paced, reactive working environment. Have any questions about what do we do? The Company? Daily life? Please contact us at careers@nanoxplore.com.
