

SOFTWARE QA ENGINEER F/H

NanoXplore is a pioneer in design and development of space-grade FPGA and e-FPGA located in Paris and Montpellier. As a rapidly growing company, NanoXplore is looking to continue building its software and hardware teams.

We are currently hiring a senior software QA engineer who will join the software team located in Paris. This person will contribute to improving the quality of NanoXplore's software tool chain.

MISSION

Your main missions will be:

- Release management.
- Develop new tools and testing processes.
- Plan and perform different stages of testing.
- Document test progress and results.

This job requires occasional travels to Montferrier-sur-Lez (34) office.

SKILLS

- Proficient in C++
- Python
- GIT
- Linux

PROFIL

- University or Engineering School degree.
- At least 5 years of industry or relevant experience in software QA.
- Curious, methodical and analytical.
- Available ASAP.

COMPANY

Join our highly motivated team and be part of our success story "à la française," in a company with a start-up mentality. We have always believed that our limits are drawn by your motivation. Always attentive to the wellbeing of its employees, NanoXplore allows you to grow and to develop your skills in a quick-paced, reactive working environment. Have any questions about what do we do? The Company? Daily life? Please contact us at careers@nanoxplore.com.

SUMMARY

- Contract: CDI – full-time
- Location: SEVRES - Île-de-France
- Experience: minimum 5 years
- Salary: based on your profile.
